Ground Aviation Pumping Systems

March 2024

SOUTHERN PUMPING

Australian manufactured and built pumping systems

Specialised design, manufacture and supply of high quality pumps and systems. Including full maintenance, fabrication, machining and repairs.

Capabilities

A 50 year history of providing superior pump solutions

Decades of proven track record in:

- Design, manufacture & supply of high quality pumps & systems
- Full service & maintenance of pump systems
- Specialised pump componentry sourcing & distribution
- Fabrication, machining & repairs in our own workshop
- Qualified engineers & trades with extensive pump knowledge

Discriminators

Rapid fire service

Experience how we an quickly meet your requiments by being:

- Agile - with global sourcing & logistics contracts
- Compliant - meeting & exceeding industry requirements
- Brand agnostic - we ensure the right product is used throughout our broad offering
- Customisation - modifying & engineering components into systems as required

Key Partners and Customers

Supporting Australia's kings of industry for over 50 years

- **Australia Defence Force:** DDG SPO – Supporting defence operations with reliable pumping solutions for mission-critical applications.
- **BAE Systems:** Delivering precision-engineered pump systems to support advanced defence and maritime projects.
- **Sydney Water:** Ensuring efficient water management with high-performance pumps for urban infrastructure.
- **South32:** Providing robust pumping solutions to support sustainable mining and resource operations.
- **BlueScope:** Enhancing industrial processes with durable and efficient pumping systems for steel manufacturing.

Quality, Standards & Other Accreditations

- **ISO 9001:** Ensuring consistent quality management for reliable and high-performance pump solutions.
- **ISO 45001:** Committed to workplace safety, protecting employees and ensuring a secure working environment.
- **ISO 14001:** Prioritizing environmental responsibility with sustainable and efficient pumping solutions.
- **DISP Clearance:** Trusted for secure defence industry operations with strict compliance and reliability.
- **Shoalhaven Defence Industry Group:** Actively engaged in supporting Australia's defence sector with expert pumping solutions.
- **NSW Government Accredited:** Recognized for delivering high-quality, compliant, and dependable solutions.

"Positive outcome is a clear result of SPS adopting a proactive approach and doing what it can to ensure end users have a positive experience engaging with SPS under the Standing Offer"
