COMPETITIVE DISCRIMINATORS

Flexibility with surface preparation – any method can be utilised
Surface standards as low as Sa 1, WJ-3 or St 2 acceptable
Quick back-in-service times; systems can continue to 'cure' underwater
No requirements for operational shutdown of plant and equipment
Outstanding adhesion on rusty or poorly prepared and wet surfaces
No humidity or dew point restrictions
Solvent-free, zero VOC; suitable for hazardous areas
World-leader in innovative protective coating solutions

On Site application services

CERTIFICATIONS / ACCREDITATIONS

- ISO 9001:2008 SGS Approval – BP Aviation Fuel – RB 300
- ABS Certificate - IMO PSPC-COT Approved Oil Cargo Tank Coating ABS Certificate - Ballast Tank Maintenance Coating
- NSF – Potable Water Coating System FDA – Potable Water Coating System FDA – Food and Beverage Coating system
- Lloyds Approval – Ballast Tank Maintenance Coating Lloyds Type Approval – PSPC for New Build – Bare & Shop Primed Steel

KEY PARTNERS

- Chemco International – UK, Singapore, North America, Eastern Europe, South Africa
- Basalt Fibre Tech

KEY CUSTOMERS

- ADF - Pacific Class Patrol Boat – Stern Tubes
- UK MoD - Missile Tubes
- French Navy – Submarine Exhaust Coatings
- Energy Australia – Cooling Water Systems, including Condenser Water Boxes
- British Petroleum (BP) – Oil and petrochemical storage
- Carnival Cruises – Potable water, Ballast tanks
